Methods and forms of teaching	Educational and curricular content
Lecture with multimedia presentation of selected issues	
Conversation lecture	T_01 – T_11
Problem-based lecture	
Informative lecture	
Discussion	
Working with text	
Case study method	
Problem-based learning	
Didactic/simulation game	
Exercise method	T_01 – T_11
Workshop method	
Project method	
Multimedia presentation	T_02_T_11
Audio and/or video demonstrations	
Activation methods (e.g. brainstorming, SWOT analysis technique, decision tree technique, „snowball” method, constructing „mind maps”)	
Other (which ones?) - ...	
...	

Evaluation criteria in relation to particular learning outcomes				
Learning outcome	For assessment 2	For assessment 3	For assessment 4	For assessment 5
EK_W01	Student does not know the mechanisms of functioning of the economy at particular stages of its development	Student barely knows the functioning of the modern economy	The student not only knows the functioning of the modern economy, but also knows how to point out the differences in its functioning at different stages of their development	The student not only knows the functioning of a modern economy, but also knows how to analyse the causes of changes occurring at various stages of its development.
EK_W02	The student is unable to describe the development of basic economic categories	The student is able to give a slight account of the development of a single economic category.	The student is able to present the development of basic economic categories	The student will not only be able to present the development of basic economic categories, but will also indicate the

				determinants of this development
EK_U03	Students are unable to assess the rationality of economic agents' decisions	To a small extent students are able to assess the rationality of economic agents' decisions	Students will be able to assess the rationality of economic agents' decisions.	The student is not only able to assess the rationality of the decisions of economic agents, but also to analyse the reasons for these decisions
EK_U04	The student is unable to identify the causes and effects of particular economic phenomena	To a small extent students are able to recognise the causes and effects of particular economic phenomena	Students will be able to recognise the causes and effects of particular economic phenomena	Students will not only be able to recognise the causes and effects of particular economic phenomena, but also to analyse them.
EK_K05	The student does not show openness in gaining knowledge about changes occurring in economic processes	The student demonstrates a low degree of openness in gaining knowledge about changes occurring in economic processes	The student demonstrates, to a sufficient degree, openness in gaining knowledge about changes occurring in economic processes	The student fully demonstrates openness in gaining knowledge about changes taking place in economic processes
