

DESCRIPTION OF THE OBJECT

FIELD OF STUDY	Management
SPECIALISATION	Logistics management
MODE OF STUDY	Full-time studies / Part-time studies
SEMESTER	6

Name of the subject	International logistics
Hourly dimension of particular forms of classes <ul style="list-style-type: none">lecturesother forms	Full-time studies – 30 Part-time studies – 18
	Full-time studies – 10 Part-time studies – 8
	Full-time studies – 20 Part-time studies – 10

Learning objectives:	– to acquaint students with theoretical and practical issues concerning international logistics
-----------------------------	---

Learning outcomes for the subject	
--	--

Number	Learning outcomes, a student who has successfully completed the course will be able to:	Reference of learning outcomes for the programme	The reference to the learning outcomes for the area
EK_W01	has knowledge of the basic issues relating to the transport market, forms of transport services in the European Union	EK_W01 EK_W03	P6S_WG
EK_W02	has knowledge of the basic issues relating to the transport market, forms of transport services outside the EU	EK_W01 EK_W03	P6S_WG
EK_U03	is able to analyse and interpret basic indicators for the evaluation of transport processes and systems	EK_U03	P6S_UW
EK_U04	is able to select and apply appropriate research tools and methods used in planning, organising and rationalising transport processes and tasks	EK_U08	P6S_UW
EK_K05	can work individually and as part of a team	EK_K04	P6S_KO

Content number	Educational/ curricular content	Reference to learning outcomes for the subject
	Lectures\ Exercises	
T_01	Essence and specificity of international logistics	K_W01 K_W02 K_U03 K_U04 K_K05
T_02	Tasks of international logistics	K_W01

		K_W02 K_U03 K_U04 K_K05
T_03	International logistics processes	K_W01 K_W02 K_U03 K_U04 K_K05
T_04	Documents in international transport	K_W01 K_W02 K_U03 K_U04 K_K05
T_05	European transport policy	K_W01 K_W02 K_U03 K_U04 K_K05
T_06	TSP (Travelling Salesman Problem), the problem of supply planning VRP (Vehicle Routing Problem)	K_W01 K_W02 K_U03 K_U04 K_K05

Methods and forms of teaching	Educational and curricular content
Lecture with multimedia presentation of selected issues	
Conversation lecture	T_01 – T_06
Problem-based lecture	
Informative lecture	
Discussion	
Working with text	
Case study method	T_04 – T_06
Problem-based learning	
Didactic/simulation game	
Exercise method	T_01 – T_06
Workshop method	
Project method	
Multimedia presentation	
Audio and/or video demonstrations	
Activation methods (e.g. brainstorming, SWOT analysis technique, decision tree technique, „snowball” method, constructing „mind maps”)	
Other (which ones?) - ...	
...	

Evaluation criteria in relation to particular learning outcomes				
Learning outcome	For assessment 2	For assessment 3	For assessment 4	For assessment 5

EK_W01	The student has no knowledge of basic issues related to the transport market, forms of transport services in the European Union.	The student has basic knowledge about the basic issues related to the transport market, forms of transport services in the European Union.	The student has knowledge of basic issues related to the transport market, forms of transport services in the European Union.	The student has a comprehensive knowledge of the basic issues related to the transport market, forms of transport services in the European Union.
EK_W02	The student has no knowledge of basic issues related to the transport market, forms of transport services outside the EU.	The student has limited knowledge of basic issues related to the transport market, forms of transport services outside the EU.	The student has knowledge of basic issues related to the transport market, forms of transport services outside the EU.	The student has very good knowledge of basic issues related to the transport market, forms of transport services outside the EU.
EK_U03	The student is unable to analyse and interpret basic indicators for the evaluation of transport processes and systems.	The student is able to analyse and interpret basic indicators for the evaluation of transport processes and systems not fully independently.	The student is able to analyse and interpret basic indicators for the evaluation of transport processes and systems.	The student is perfectly capable of analysing and interpreting basic indicators for evaluating transport processes and systems.
EK_U04	The student is unable to select and apply appropriate research tools and methods used in planning, organising and rationalising transport processes and tasks.	The student is able to sufficiently select and apply adequate research tools and methods used in planning, organising and rationalising transport processes and tasks.	The student is able to select and apply adequate research tools and methods used in planning, organising and rationalising transport processes and tasks.	The student is able to select and apply appropriate research tools and methods used in planning, organising and rationalising transport processes and tasks.
EK_K05	The student is unable to work individually and in a team.	The student is not always able to work individually and in a team.	The student is able to work individually and in a team.	The student is able to work excellently individually and in a team.
